**DETAILED ACTION**

1. This application has been reviewed. Original claims 1-20 are pending. The rejection cited stated below.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Oldman et al., et al., U.S. Patent Application Publication No. 2004/0226004[herein after Oldman].

As per claims 1, Wydra discloses a method of executing a monolithic application program on a grid computing system comprising the steps of:

executing the program on a computer on which the program has previously successfully executed (see figs. 1-2 and paragraphs 0049);

monitoring the execution of the program to collect runtime information of the program paragraphs 0049);

providing a computer system on the grid computing system (different platform system)

on which the program is to be executed with the runtime information of the program;

and executing the program on the computer system on the grid computing system(i.e.,

Art Unit: 2157

providing runtime report before the application program)(paragraph 0050)

As per claims 2-6) he method of claim 1 wherein the runtime information includes file systems that are accessed by the program (see paragraphs 0049).

As per claims 6-20, the claims include features similar with features in claims 1-5, thus claims 2-6 are rejected same rational as claims 1-5.
